

Forest Cottages

This row of deceptively rustic, terraced cottages is made up of five mezzanine cottages and two, more spacious, two-bedroomed cottages. All have sun-drenched patios, open-plan living, dining and kitchen areas, that overlook an immense swimming pool with a vine-covered, pool-side pavilion. Decorated with a collection of watercolours, oil paintings, colourful Indian textiles and antique linen cushions, each rustic cottage has its own unique sense of life, adventure and tranquility. Booked together, they are the ideal setting for large family gatherings and celebrations, or individually for quiet getaways.

Mezzanine Cottages (Cottages Numbers 2, 4, 5, 7 and 8)

The main bedroom, with double bed, of these intimate cottages is located on the ground floor. The mezzanine-level second bedroom has twin beds nestled in the eaves and overlooks a cozy, open-plan living, dining and kitchen area, with a dining table seating 6, built-in Barazza-style sofas, armchairs, and an open wood-burning fire. French doors open out onto a sheltered patio with built-in barbecue and endless views.

Ideal for couples sharing or families with older children, these cottages have a family shower-room, with enclosed shower, loo and single basin (towels and toiletries provided). The rooms are equipped with a fan for summer, and wall-panel heaters if the nights are cool. Each bedroom has a guesthouse quality mattress, pure cotton bedding, feather pillows and duvet – adding a touch of luxury to each cottage's rustic simplicity.

Two-Bed Cottages (Cottages 3 and 6)

Unlike the mezzanine cottages, both the main (double) and second (twin) bedrooms of these two cottages are on ground level, also with a shared, family shower-room. The spacious open-plan living, dining and kitchen areas contain built-in Barazza-style seating and lavish armchairs, with a wood-burning closed fireplace. French doors open onto a sunny patio with Weber barbecue, and small table and chairs – perfect for families with young children, couples sharing or with elderly grandparents.

All eight of the Forest Cottages have well-equipped kitchens with electric hobs and combination oven/microwaves, fridge/freezer units, SMEG toasters and kettles and an ample supply of crockery, everything you need for alfresco family meals or cozy dinners. You can even help yourself to seasonal herbs and veggies from the kitchen gardens outside the cottage entrances. Picnic on the lawns by the pool, stoke the fire for a barbecue (braai) on your patio, dine at the farmhouse-style dining tables or gather with friends in the pavilion for pool-side meals.
